IMPORTANT NOTES

Specifications

X-Range is offered in Oak, Beech, Golden Maple and White MFC (melamine), edged with 2mm PVC lipping. Please note that finish colours printed in our literature or viewed on our website cannot be relied on for colour accuracy: samples of all our finishes are available on request from our Customer Service Department.

Pedestals are fitted with recessed drawer pulls. Storage units are fitted with handles, except vertical tambour doors which have integral finger pulls.

We reserve the right to amend or update specifications without prior notice. Dimensions are listed in the order width x depth x height. All dimensions are nominal.

Maintenance

X-Range furniture requires no maintenance and cleaning should be carried out solely with a damp cloth and soft duster. Spray and wax polishes must not be used. Fabric upholstery should be vacuumed regularly with appropriate care. Leather upholstery should be cleaned with a soft damp cloth. Avoid placing leather upholstery in direct sunlight or close to heat sources such as radiators.

Packaging and delivery access

X-Range storage units and pedestals are supplied assembled. Desks and most other items are supplied flat packed for assembly on site. It is the purchaser's responsibility to ensure that building access is adequate before ordering: assembled items cannot be dismantled once manufactured. In the event of direct delivery by Sven Christiansen abortive delivery charges may become payable if delivery cannot be effected due to inadequate access, inappropriate specification or site conditions. If in any doubt about access please contact us to arrange a site survey.

Guarantee

X-Range furniture is guaranteed for a period of five years against any defect resulting from faulty materials or workmanship (three years in the case of moving parts – seating excepted), fair wear and tear excluded and subject to appropriate use, care and maintenance.

Prices, Terms and Conditions

All prices are exclusive of VAT. All supplies are subject to our Terms and Conditions of Sale – see p.19.

Sven Christiansen plc reserve the right to amend or delete products without notice.

MONITOR ARMS – for monitors with standard VESA mounting holes 75x75mm or 100x100mm

Through-desk adjustable-height double extension monitor arm (pole height adjustment). Fits through standard access cut-out, retaining cable access. Silver finish
QMATV2 £84

Optionally available in White RAL9010. To specify, add /WH to the code.

Desk-clamp adjustable-height double extension monitor arm (pole height adjustment). Silver finish
QMACV2 £85

Optionally available in White RAL9010. To specify, add /WH to the code.

Desk-clamp/through desk (both brackets) articulated single extension adjustable-height monitor arm (pole and adjustable spring height adjustment). 12kg max load. Silver.
QMACVA1 £181

Desk-clamp/through desk (both brackets) articulated double extension adjustable-height monitor arm (pole and adjustable spring height adjustment). 12kg max load. Silver.
QMACVA2 £222

QMACVA1 and QMACVA2 may be attached using through-desk brackets only.

DESK PANEL AND FRAME OPTIONS EXPLAINED

X-Range desks, workstations and returns are available either on timber panel ends, or on two styles of metal frame.

The "B" pattern frame has twin uprights formed from rectangular section tube. A cable riser (in slate) may be added between the uprights as an optional extra.

The "M" pattern frame has a single wide upright formed from a radiused

(rounded) section, and incorporates a cable management riser as standard, concealed on the inside of the upright.

Both frame styles are available finished in slate or silva. The metal corner leg on metal frame desks matches the frame colour specified: on panel end corner desks and 120° workstations the corner leg is finished in slate by default.

Panel

"B" pattern frame

"M" pattern frame

NB Cable access ports are always finished in slate

All X-Range Cable Management is accessible from the user side of the desk. This ensures that cables remain accessible even where desks are placed back to back, or up against walls or screens. See page 6 for cable management accessories.

Guidance notes – space saving Compact Wave Desks and Compact Wave Workstations

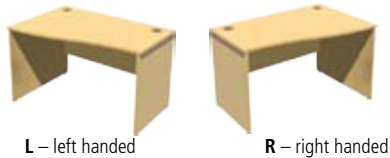

Our standard wave desks have a minimum depth of 800mm and a maximum of 1000mm. Our new Compact Wave Desks Compact Double Wave Desks and Compact Wave Workstations (with integral pedestal) are 200mm shallower, with a minimum depth of 600mm and a maximum of 800mm. This still provides adequate depth to work with a flat screen monitor (up to 20") positioned towards the rear of the wave section whilst offering a significant reduction in planning footprint.

Our Compact Wave Desks are 1200mm wide and are designed to be used with either a narrow mobile pedestal underneath the desk (leaving an 800mm kneehole), or with a desk height pedestal 800mm or 600mm deep to either side of the desk.

Our Compact Wave Workstations are available in widths of 1200mm, 1400mm and 1600mm. The 1200mm workstations incorporate a narrow three drawer pedestal: the 1400mm and 1600mm workstations incorporate a standard width three drawer pedestal.

Our Compact Double Wave Desks are available in widths of 1400mm and 1600mm and are designed to be used with either standard mobile pedestals or narrow mobile pedestals.

CORNER DESK OPTIONS EXPLAINED

We offer both Corner Desks and Compact Corner Desks. Our Compact Corner Desks are 200mm shallower – which results in a useful reduction in planning footprint – and are intended for use with flat monitor screens.

We offer Corner Desks and Compact Corner Desks in standard and “Simple” variants. Standard Corner Desks have a panel (or frame) at one end, with a corner leg and further panel or frame supporting the other end. On Simple Corner Desks the corner leg and second panel/frame are replaced by a single panel/frame. This simplified construction results in cost savings that are reflected in lower prices.

500x525x1395mm,
4 drawer, locking
QFC4/ £253**

All pedestals are lockable. Fixed & Mobile units are for use under 800mm ends of desks.

★ Fixed pedestals cannot be attached to QD8 desks and QD8F, QL90RF or QL90QF reception desks, except to special order – because fitting a pedestal leaves insufficient kneeroom for a user. Fixed pedestals cannot be attached to Compact Corner Desks or Double Wave Desks because of the inwards curve of the tops: we recommend using narrow mobile pedestals under these desks.

OPEN Prentay – fits top drawer of any pedestal, with the exception of narrow pedestals **£3**

STORAGE FITTINGS

Side opening tambour units are 1000mm wide externally but take 800mm fittings. All storage units are priced empty except where indicated. All 2000mm high units (excluding tambour units) are fitted with one matching 25mm shelf to aid structural stability in transit and use. This shelf must be fitted as close to the centre of the storage unit as possible.

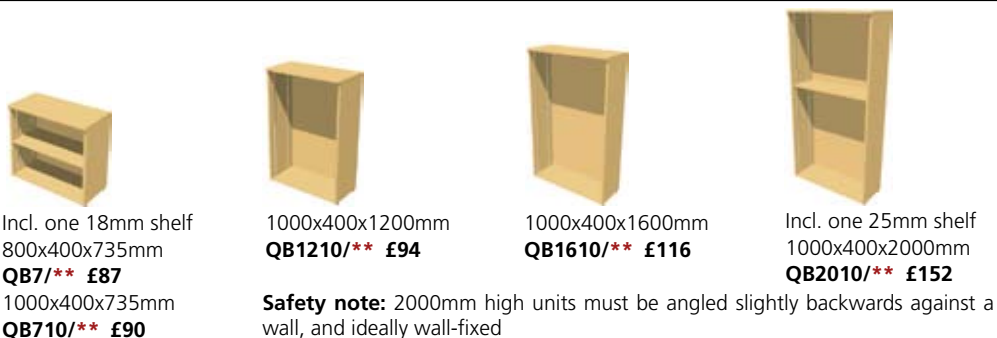

IMPORTANT SAFETY NOTES:

When fitting roll out filing frames in storage/tambour units, for safety and stability reasons always fit and load starting at the very bottom of the unit. Always fully load the lower roll out filing frame before starting to load the frame above and never put more than three roll out filing frames in a storage unit. Never roll out more than one frame at a time. Anti-tilt cable kits are available as an optional extra at point of purchase. When installing storage units it is advisable to 'set' the unit so that it is leaning slightly backwards. This ensures that frames cannot roll out unintentionally. For stability reasons we do not recommend fitting roll-out filing frames behind double doors on desk height units, unless optional counterbalance weights are fitted: P.O.A. Storage units are supplied assembled as standard. Any 800mm or 1000mm storage unit may be supplied KD for an additional charge of £32.

Anti-tilt Cables

YAT2 Anti-tilt cable kit for 2 file frames/boxes (supply only) **£5**
YAT2F As above, factory fitted (specified at point of order) **£14**
YAT3 Anti-tilt cable kit for 3 file frames/boxes (supply only) **£10**
YAT3F As above, factory fitted (specified at point of order) **£22**

SCREENS: INTRODUCTION

Overview

QLS screens have a 40mm thick extruded thermoplastic frame, in either slate or silva finish. The innovative design-registered linking system makes QLS screens very easy to specify, install and reconfigure: please see next page for details.

The QLS screen system offers freestanding screens in rectangular solid and part-glazed variants, and solid wave-top screens, in heights from 1000mm to 1800mm. Curved screens are also available; solid, glazed and part-glazed. Matching desk-mounted QLS screens are available in rectangular and wave shapes.

Guidelines for specifying QLS screens

1. Locate the code for the screen you require.
2. Replace the ## in the code with the letters for the frame colour desired. (SL=Slate, SA=Silva).
3. Select the fabric range. Replace the + at the end of the code with the code for the fabric colour (colour codes are listed on our screen fabric swatch cards).

4. Calculate the number of stabilising feet and/or brackets required.
5. Check if additional linking strips are required (each screen is supplied with one strip).

Important note re. 1800mm wide screens

Fabric runs vertically on all screens except those 1800mm wide, where limitations of the width of the fabric rolls mean fabric must run horizontally. This means that any pattern in the fabric on an 1800mm wide screen will mismatch any adjacent smaller screens. Even plain fabrics with no apparent pattern *may* appear a different colour/shade when upholstered in a different orientation.

We list 1800mm wide screens because their use can substantially reduce costs in circumstances where otherwise two smaller screens would have to be used. However, specifiers should avoid using 1800mm screens in patterned fabrics and must be aware of the potential for perceived mismatch even with plain fabrics.

With Corner Desks and Compact Corner Desks (codes QC and QCC)

With Simple Corner Desks and Simple Compact Corner Desks (codes QCS and QCCS)

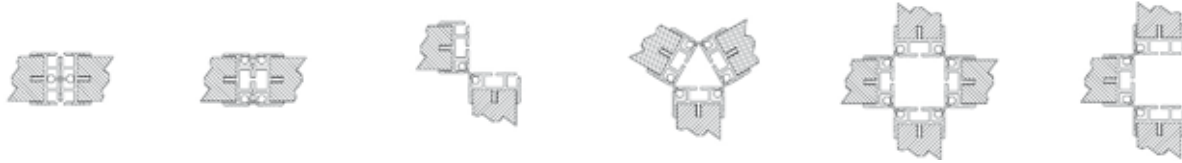

With 120° Workstations (code QC120)

THE MOST INTELLIGENT SCREEN LINKING SYSTEM ON THE MARKET

QLS screens feature unique design-registered end posts, which provide the functionality of system screens with the flexibility and ease of use of a dumbbell-linking. Each end post incorporates three linking channels: one centre channel and two side channels. This design makes it possible to specify screens to surround furniture simply by selecting the screens that match the furniture components concerned: screens linked at an angle do not overlap each other as is generally the case with most other dumbbell-linked designs. It is also possible to link desk-mounted screens to freestanding screens using the standard dumbbell strip, and to link screens of different heights.

Linking two screens with a single linking strip in the central channel provides a close connection that is firm enough for most purposes. However, if it is desired to lock two screens rigidly together this may be achieved by using linking strip in both outer channels.

SCREEN FEET AND BRACKETS

As standard, all screens are supplied with levelling feet. The necessity for stabilising feet is dependent on the screen layout and the extent to which the layout is self-supporting. A stabilising foot is generally required at the beginning and end of a run of screens, and wherever there is a straight run of more than two screens. A stabilising half foot can sometimes be used to avoid encroaching on walkways, or where an obstruction on one side of a screen precludes the use of a full foot. All stabilising feet incorporate stepless height adjustment.

A stabilising bracket can be used in place of a stabilising foot at the end of a screen run, where the end of the final screen lines up with the end of the furniture. We do not recommend a straight run of more than 4000mm without additional support from furniture or a screen linked at an angle of 90°.

Stabilising Feet

STANDARD TERMS AND CONDITIONS OF SALE

1 GENERAL

(a) Sven Christiansen plc, hereinafter referred to as Sven plc, provide all quotations and accept all orders for the supply of furniture and goods as detailed in any quotation and/or order subject only to the terms and conditions which follow and to the exclusion of all other guarantees, conditions and warranties (including any as to quality and fitness for any particular purpose) whether express or implied by statute or common law or otherwise. In the event of a purchaser's order containing conditions such conditions are only binding insofar as they are not inconsistent with Sven plc's terms and conditions as herein set out.

(b) No additions to or variations from Sven plc's acknowledged price or terms and conditions shall have effect unless such variation or addition is expressly accepted by Sven plc in writing under the hand of a Director. Sven plc's employees or agents are not authorised to make any representations unless confirmed by a director of the company in writing. On ordering any goods and furniture and being accepted by Sven plc the Purchaser acknowledges that the contract is entered into incorporating the terms and conditions herein set out and it does not rely on and waives any claim for breach of any such representations which are not so confirmed.

(c) Catalogues, price lists and other advertising matter shall not form part of any contract between Sven plc and the purchaser. Any typographical, clerical or other error, or error of omission in any sales literature, quotations, price list or any other document or information issued by Sven plc shall not be binding on Sven plc and shall be subject to correction without liability to Sven plc as vendor or provider.

(d) No claims for loss or damage to furniture and goods, materials and purchaser's property, claims for bad workmanship (save as set out below) or claims for furniture and goods invoiced but not received, will be considered unless Sven plc is advised in writing within 3 days from the date of final invoice. In the event that a purchaser fails to give the appropriate notice and does not notify Sven plc in writing within the specified three day period, the purchaser's claim will be deemed to have been waived and the Purchaser will be barred from making any further or other claim in respect thereof.

(e) Sven plc furniture is guaranteed for a period of five years against any defects resulting from faulty materials or workmanship, or for three years in the case of moving parts, provided that:

- i) The furniture and goods have not been subjected to any unauthorised repair or misused, abused or altered in any way whatsoever.
- ii) The furniture and goods have been properly installed, connected and assembled (if such works were not carried out by Sven plc).
- iii) Any fault or defect with the furniture and/or goods is notified in writing within three days of becoming evident.
- iv) The furniture and goods are returned appropriately packaged, carriage paid, to Sven plc, unless expressly agreed otherwise by Sven plc.
- v) Sven plc shall be under no liability in respect of any defect arising from wear and tear, wilful damage, negligence, abnormal usage or working environment, or failure to follow the manufacturer's or other provider's instructions whether oral or in writing.
- vi) Sven plc shall be under no liability with regard to any warranty or guarantee if the total price of the furniture and goods was not paid by the due payment date as specified in the Sven plc written acceptance of the said order.
- vii) Subject as expressly provided for in these Terms and Conditions and except where the Furniture and goods are sold to a person dealing as a consumer (within the meaning of the Unfair Contract Terms Act 1977) all warranties, conditions or other terms implied by statute or common law are excluded to the fullest extent permitted by law.
- viii) References to Purchaser shall mean in these terms and conditions the company entity or individual ordering goods and furniture from Sven plc.

2. QUOTATIONS. Orders placed upon a quotation which has not been previously withdrawn are subject to confirmation that Sven plc accepts the same. Unless otherwise stated all prices quoted are deemed to be exclusive of VAT. Sven plc reserves without liability, the right to at any time, reduce or withdraw discount terms and/or credit account facilities without notice, reference or explanation to the Purchaser.

3. PRICES. Sven plc shall use reasonable endeavours to maintain prices quoted and/or detailed on their order acknowledgement, but must reserve the right to increase quoted prices according to any increases in costs which take effect between acceptance and delivery/completion of the order or that part of the order remaining undelivered/incomplete at the time of such increase. In the event that the quoted price includes elements of work in relation to which Sven plc has been unable, for whatever reason, to carry out a site survey, or in the event that Sven plc is required to carry out additional work not detailed in the original quotation, Sven plc reserves the right to amend the quoted price accordingly whereupon the price payable by the Purchaser in relation to the goods and furniture shall be adjusted accordingly.

4. TERMS OF PAYMENT. Payment shall be made to Sven plc at the time and in the manner stated in the Sven plc quotation or if no such time and manner are stated then within 30 days of the date of invoice. In all cases the prices quoted by Sven plc are strictly net. In the event of non-payment of the price quoted, Sven plc reserve the right to claim statutory interest (8% p.a. over Bank of England base rate), compensation and to recover debt recovery costs as provided for under the Late Payment of Commercial Debts (Interest) Act 1998 and the Late Payment of Commercial Debt Regulations 2002. Prompt settlement discounts are subject to payment within the terms set out herein or as specified in any quotation or special terms offer. Sven plc reserve the right to re-invoice for the full pre-discounted price in the event of late or non-payment. The Purchaser shall not be entitled to withhold payment as a result of any claim it may have against Sven plc and the Purchaser may not claim any right of set off.

5. DELIVERY/COMPLETION. Sven plc will use reasonable endeavours to deliver/complete promptly but Sven plc shall be under no liability whatsoever for delay in estimated delivery/completion times or failure to deliver/complete from any cause, nor for any loss or damage arising therefrom. Sven plc reserve the right to make partial delivery or deliveries by instalments and to invoice for such deliveries as are made. In no event will Sven plc be liable for any action of the purchaser's employees assisting in delivery. The purchaser will indemnify Sven plc against all claims, proceedings, demands and costs arising therefrom.

6. OWNERSHIP OF FURNITURE AND GOODS.

(a) The title and property in all furniture and goods and materials supplied by Sven plc does not pass to the Purchaser and/or Purchaser until payment in full (for all furniture and

goods whatsoever supplied) has been received therefor by Sven plc, and risk in respect of such furniture and goods passes to the purchaser from the moment of delivery to the purchaser's nominated location.

(b) Until title in furniture and goods passes, the purchaser shall hold the furniture and goods as bailee for Sven plc. These furniture and goods must be stored separately from all other furniture and goods, and be clearly marked as being the property of Sven plc.

(c) If payment of account is overdue (time being of the essence) or the purchaser becomes insolvent, commences winding up procedures, commits an act of bankruptcy or has a Receiver or Administrator appointed, Sven plc may immediately reclaim and recover the furniture and goods, if necessary by entering any premises owned or occupied by the purchaser.

(d) If the purchaser sells the furniture and goods before title to these furniture and goods passes to him the sale shall be made by the purchaser as fiduciary agent on behalf of Sven plc. The monies due to Sven plc for payment of furniture and goods from such sale must be kept separate to other monies and be clearly denoted as monies held in trust on behalf of Sven plc. Regardless of such agency the purchaser has no right to bind Sven plc and shall, as between the purchaser and his customers, act as principal.

7. EXCLUSIONS. Liability is expressly excluded in regard to equipment not manufactured by Sven plc or procured on behalf of the purchaser from a specialist supplier except to the extent that any benefit is obtainable from the written guarantee of such a supplier or enforceable by Sven plc without legal or other expenses whatsoever and the benefit obtained shall be passed to the purchaser. If furniture and goods are to be manufactured or provided in accordance with a design/specification provided by the purchaser, the purchaser shall indemnify Sven plc against all loss, damage, costs, expenses and liability in connection with such design/specification. Sven plc shall be under no liability in respect of any defect in the furniture and goods or lack of fitness for purpose arising from any drawing, design or specification supplied by the Purchaser.

8. CANCELLATION/DELAY. Orders cannot be cancelled except with Sven plc's consent and on terms which will indemnify Sven plc against all loss. If a purchaser extends or delays a contract or part thereof or fails to accept delivery of any furniture and goods at the time agreed, or when notified that the furniture and goods are available to be delivered, then the purchaser will be liable for any and all losses incurred by Sven plc, including disruption, loss of profit, storage costs, additional transport and handling costs resulting from the purchaser's actions. If a purchaser delays receipt of delivery of any furniture and goods in excess of fourteen days from the date agreed, or when notified that the furniture and goods are available to be delivered, the furniture and goods will be invoiced, and payment in full shall be made by the Purchaser thirty days thereafter. For the avoidance of doubt, once delivered to the Purchaser at the address notified by the Purchaser to Sven plc or to the Purchaser's address specified on any quotation or order for such furniture and goods cannot be cancelled.

9. FORCE MAJEURE. If Sven plc is unable to perform any part of the order made by the Purchaser for a reason of force majeure or any other reason outside their reasonable control, Sven plc shall be entitled to charge the purchaser for any additional time, cost or expense incurred as a result thereof and where Sven plc is unable to perform any part of the contract for any such reason for a period of more than one week, Sven plc shall be entitled to postpone its performance of the contract until such time as it is reasonably able to recommence the contract.

10. TERMINATION. In the event that the purchaser fails to observe or perform any of their obligations under the terms of the contract, Sven plc reserve the right to terminate the contract forthwith by service of written notice of termination to the purchaser.

11. CONSEQUENTIAL LOSS. Sven plc shall not be liable to the purchaser by reason of any representation, or any implied warranty, condition or other term, or any duty at common law, or under the express terms of the Contract, for any consequential loss or damage (whether for loss of profit or otherwise), costs, expenses or other claims for consequential compensation whatsoever (and whether caused by the negligence of Sven plc, its employees or agents or otherwise) which arise out of or in connection with the supply of the furniture and goods or their use or resale by the purchaser, except as expressly provided in these conditions.

12. THIRD PARTY CLAIMS. If any claim is made against the purchaser that the furniture and goods or services infringe or that their use, resale or provision infringes the patent, copyright, design, trade mark or other industrial or intellectual property rights of any other person, any liability of Sven plc to the purchaser shall be subject to Sven plc being given full control of any proceedings or negotiations in connection with any such claim including the payment or settlement thereof.

13. EXPERTISE. The Purchaser hereby undertakes not to offer employment to or to employ or otherwise contract either directly or through a third party for the services of any existing employee of Sven plc or any former employee of Sven plc who has been an employee within the six months prior to being offered the employment or arrangement whereby the former employee of Sven plc would provide service to or for the Purchaser, without first obtaining the consent of Sven plc whether or not such employee has worked or served directly the needs of the Purchaser whilst he or she was an employee of Sven plc. If the Purchaser breaches the preceding provision Sven plc shall be entitled to demand and be paid liquidated damages by the Purchaser. Such sum to be determined by an arbitrator appointed by the Chartered Institute of Arbitrators.

14. DISPUTE PROCEDURE: Any dispute arising out of or in connection with these terms and conditions shall be referred to and finally resolved by arbitration under the Controlled Cost Rules of the Chartered Institute of Arbitrators, and these Rules are deemed to be incorporated herein.

15. RIGHTS. Failure by Sven plc to enforce any of the contract terms cannot be construed as a waiver of any of its rights under this contract. No waiver by Sven plc or any breach of the Contract by the Purchaser shall be considered as a waiver of any subsequent breach of the same or any other provision.

If any provision of these conditions is held by any competent authority to be invalid or unenforceable in whole or in part, the validity of the other provisions of these Conditions and the remainder of the provision in question shall not be affected thereby.

16. GOVERNING LAW. The Laws relating to England shall apply to any quotation or order and the terms and conditions specified herein shall be construed and operate under English Law.
