STOCK PROGRAMME

HiRise sit-stand desk: Natural Halifax Oak top, White frame

Ligni workstation: White MFC top and storage. J2HA working chair.

Stylish sustainability

This Ligni workstation features immensely strong, elegantly radiused ply legs, faced in Oak veneer, that bring out the distinctive character of this environmentally-friendly material and add warm timber accents to your home interior.

FROM STOCK

1400 x 800 x 735mm high in White.

1200 x 800mm top and other finish combinations to order.

FROM STOCK

All the above chairs from stock in the specifications listed.

Available in other fabrics/colours and with a wider range of options, to order.

Stylish and practical furniture for home working,

made to the same standards of quality, safety and durability as our commercial ranges — but in smaller sizes better suited to most homes.

i

Self-assembly requires a Pozidriv/crosshead screwdriver, plus on Ambus a flat blade screwdriver, and hammer (to knock in the included timber dowels). Pliers can be helpful in fully tightening leg wing nuts on Ligni.
